The Future of Learning is now

Keeping your business up to speed with changing technologies – through adaptive online learning
E-Learning platforms available to your people anywhere, anytime

Watch a video course on commuter train to work

Listen to an audiobook while driving

Quickly find the answer to a problem

Take a live online course with an expert instructor

Read pre-release books

Join your team to watch conference sessions on video

“The TechLEARN Pluralsight platform is embedded in our talent development strategy. It enables our staff to continuously learn new skills and access the latest knowledge.”

Denis English, Head of Talent Development, Version 1

“Continuous professional development is important to our company. TechLEARN with O’Reilly Learning provides the latest knowledge for our development teams.”

Paul Madden, Managing Director, Neueda Technologies Ireland
Our platform gives tech leaders unprecedented insights into the skill gaps across their organizations, and we provide the tools to close them, enabling enterprises to accelerate innovation.

Maire Hunt Network Director, Technology Ireland Software Skillnet
How TechLEARN can help your business

- Skill up teams on the improvements and advancements in their current technology stack
- Evaluate, learn and implement new technology
- Measure your teams skills and validate growth
- Assess team readiness and align right people to right projects
- Track progress in real time
- Save travel time and expense
- Customise learning to individual and team needs
- Solve problems through just in time knowledge and information
- Increase productivity for tasks and teams

Powerful features to stay competitive

- Vast training libraries and new courses daily
- Powerful author and tutor network
- Advanced management reporting and analytics
- Learning paths and playlists
- Customisable for your company
- Hands on learning in sandbox environments
- Benchmark proficiency levels to customise content
- Learning anytime, anywhere
- Live interactive programmes
- Searchable content for just in time knowledge
- Dashboards to measure your company’s existing knowledge
- Track your teams progress and align right people to right projects
- Proficiency benchmarks to assess team readiness
- Role and skill based content
- Systematic guided learning paths
Specific skills and courses

Through Pluralsight and O’Reilly Learning, TechLEARN learning platforms enable all of your staff staff to access thousands of courses and hundreds of learning paths, from foundation to advanced levels. Some of the topics covered are outlined below.

**AI and machine learning**
- Artificial intelligence
- Chatbots
- Computer vision
- Machine learning
- Deep learning
- Neural networks
- Reinforcement learning
- Natural language processing (NLP)
- And many more...

**Cloud platforms**
- Amazon Web Services
- Cloud Foundry
- Google Cloud Platform
- Heroku
- IBM Cloud
- Microsoft Azure
- OpenStack
- And many more...

**Data science**
- Analytics platforms
- Bioinformatics
- Data governance
- Data science tools
- Data visualization
- Enterprise data strategy
- Exploratory data analysis
- Graph analytics
- And many more...

**Data engineering**
- Data models
- Data warehousing
- Database administration
- Google BigQuery
- Hadoop
- Hive
- Integration solutions
- NoSQL databases
- Oracle Database Solutions
- Relational databases
- SQL
- And more...

**System administration**
- Cloud computing
- Cloud migration and platforms
- Computer networking
- Configuration management
- Containers
- DevOps
- Infrastructure as code
- Microservices
- Site reliability engineering
- Virtualization
- And more...

**Business**
- eCommerce
- Economics
- Finance and accounting
- Gig economy
- Human resources
- Project management
- Strategy
- And more...

**Security**
- Application security
- Digital forensics
- Frameworks and standards
- Malware
- Network security
- Penetration testing / Ethical hacking
- Security certifications
- Security engineering
- And many more...

**Software architecture**
- Architectural patterns
- Distributed systems
- Domain-driven design
- Enterprise architecture
- Evolutionary architecture
- Serverless architecture
- And more...

**Software development**
- Blockchain / Decentralized apps
- Coding practices
- Compilers
- Domain-specific languages
- Graphics programming
- Programming languages
- QA / Testing
- And more...

**Design**
- Design process
- Design tools
- Interface design
- Product design
- Virtual reality / Augmented reality
- Visual design
- And more...

**Web and mobile**
- Mobile development
- Automation tools
- Progressive web apps
- Google Web Toolkit
- JavaScript
- Node.js
- PHP
- Ruby on Rails
- Dreamweaver
- And more...

**Programming**
- .NET
- C, C++, and Objective-C
- Functional programming
- Go
- JVM Languages
- Java
- Perl
- Python
- Ruby
- And more...

**Hardware**
- Chips and processors
- Drones
- Embedded systems
- IoT
- Kinect
- Making
- Wireless

**Data engineering**

Company funding and support from the Technology Ireland Software Skillnet

Technology Ireland Software Skillnet funding enables your company to introduce TechLEARN platforms at greatly reduced prices.

Our TechLEARN support service will enhance your knowledge of learning technologies, provide support with implementation, keep you informed of best practice and help you to deliver business impact reports for your management teams.

Regular meet-ups of our TechLEARN company users will enable your L&D leaders to swap experience and learn from the digital learning journey of other companies. Platform advisors will also be on hand to demonstrate latest features and provide expertise.

For more information, go to www.softwareskillnet.ie/TechLEARN
Contact us at TechLEARN@softwareskillnet.ie
